ActionFit outdoor fitness equipment is designed for users 13 and up.

▶ CHOOSING OUTDOOR FITNESS WITH A PURPOSE

FROM THE EXPERT

Gary Liguori, PhD, is a Fellow of the American College of Sports Medicine (ACSM) and the head of the Department of Health and Human Performance at the University of Tennessee at Chattanooga. He oversees a department with 19 faculty across a broad array of fitness and health areas.

“The four elements of fitness are critical for anyone in terms of wellness.”

Dr. Liguori believes that there are four elements of fitness critical for everyone in terms of overall wellness. The number one reason for these elements is chronic disease prevention. **Aerobic** fitness enables the heart and lungs to work at their optimum level. Regardless of the task or **muscle strength**, there is an equal emphasis to be fit from a muscular standpoint. For an elderly person, it might mean getting out of a chair. **Core** fitness provides whole-body stability, helps improve sport performance, and helps prevent injury. **Flexibility** enables us to perform at peak ability through a full range of motion and decreases injury risk. **Balance** ties in all of the other components.

FROM THE TRAINER

Tonya Martin, CI, CPT believes that having an outdoor fitness park is important because **“you get more than you do in a gym - it’s a great way to get Vitamin D, boost serotonin, and improve overall mood and well-being.”**

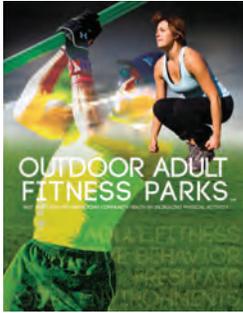

In order to gain insights from a fitness trainer’s perspective, we asked Tonya to develop a specialized workout utilizing ACTIONFIT equipment for her weekly boot camp. Tonya’s clients span multiple fitness levels, ages, and skills.

Watch Tonya’s testimonial on ActionFit equipment by scanning the QR code below.

▶ CREATE A FITNESS DESTINATION

By including equipment that offers the four elements of fitness, you can ensure your Outdoor Fitness Park provides a well-rounded fitness routine that promotes health improvement and wellness.

NEED HELP PLANNING ?

We got you covered! PlayCore's Outdoor Adult Fitness Parks Best Practices for Promoting Community Health by Increasing Physical Activity Guide, provides the information needed to effectively advocate the benefits of outdoor fitness space in your community. This guide also contains meaningful descriptions and promotes best practices through community case studies. Request your free copy TODAY at www.actionfitoutdoors.com/contactus.

Signage is provided* and includes instructions for basic exercises as well as, QR codes to access video tutorials.

*unless otherwise noted

SEE PG. 11 FOR A LIST OF THIS EQUIPMENT

THE FOUR ELEMENTS OF FITNESS

AEROBIC

Keeps heart and lungs functioning at optimum levels.

MUSCLE FITNESS

Builds endurance and strength, to perform challenging tasks.

BALANCE & FLEXIBILITY

Important for injury or fall prevention and muscle fitness.

CORE

Stabilizes the body during movement.

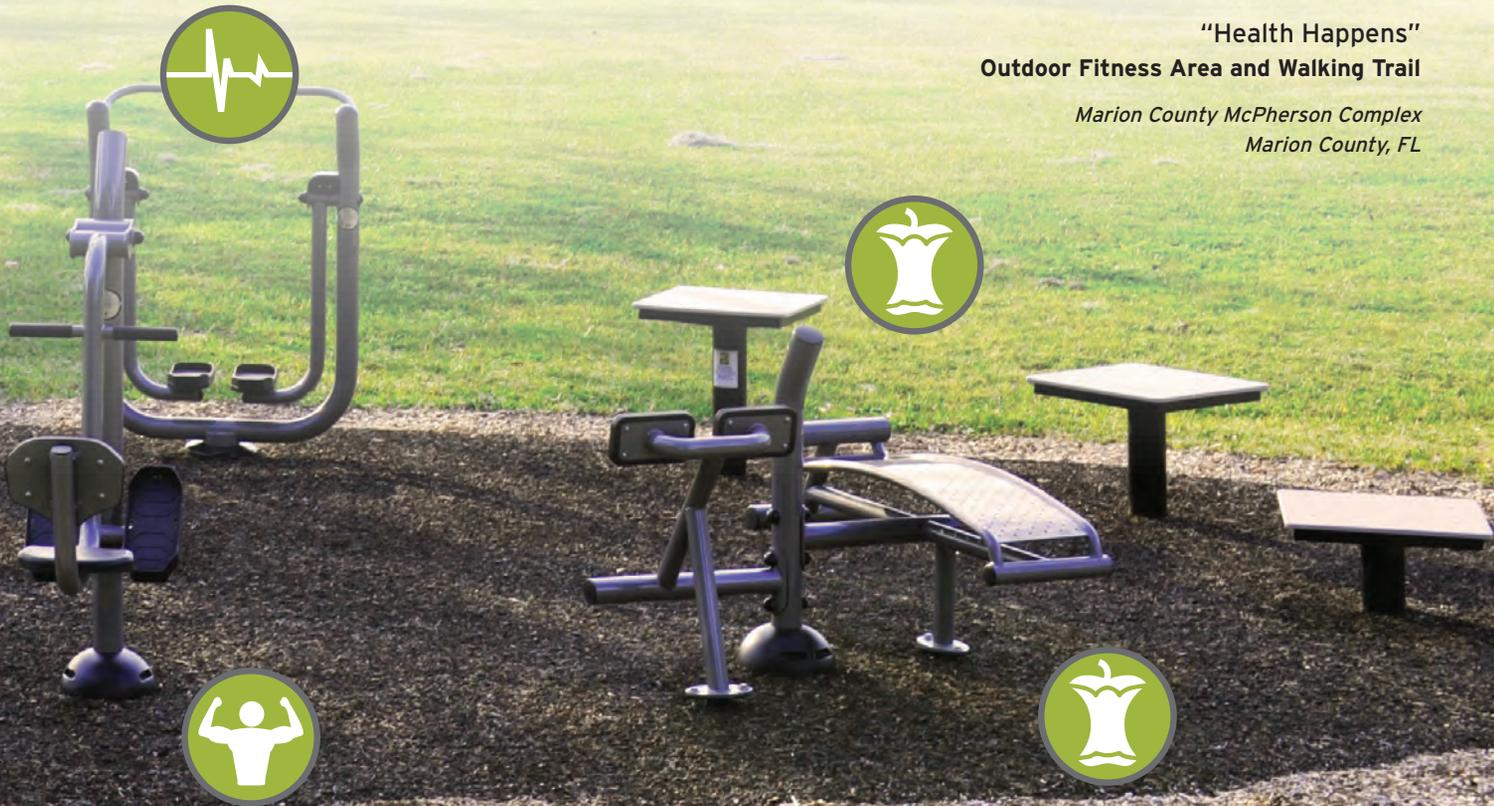

BECOME A NATIONAL DEMONSTRATION SITE

By including the four elements of fitness, your park qualifies to become a National Demonstration Site. This prestigious status is named by PlayCore, UltraSite's parent company. Along with the National Demonstration Site recognition you also receive:

- Listing on the National Registry of Outdoor Fitness Parks
- Exclusive designation sign
- Permission to use National Demonstration Site Seal for marketing purposes
- Recognition letter and certificate
- National Press to promote your leadership as an advocate for Health in your community

"Health Happens" Outdoor Fitness Area and Walking Trail

Marion County McPherson Complex
Marion County, FL

FITTECH

The FitTech line offers an intense design solution for high use areas where form and function matter. Users will appreciate the state-of-the-art function of the magnetic resistance bearings in cycling equipment, which ensure smooth gliding pedal rotation and dynamic resistance that emulates the experience of riding a bicycle. Similarly, strength equipment features a rubber spring resistance which provides durable, long-wearing resistance for users of various skill levels.

COLORS

Available in a modern metallic and black color scheme.

SIGNAGE

The FitTech line offers instructional signage which includes step by step instructions, a muscle diagram indicating the muscles that are being worked, and QR codes to access video tutorials.

*Signage included unless otherwise noted.

This symbol indicates that the package contains equipment necessary to qualify to be a **NATIONAL DEMONSTRATION SITE**

Learn more on pg. 7

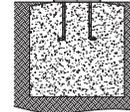

MOUNTING OPTIONS

FitTech products are available with a choice of mounting options unless otherwise noted.

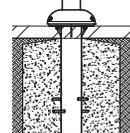

Surface Mount (SM)

J-bolt footing (J)

In-ground (S)

Accommodates surfacing

10
year

Limited 10-Year Warranty

Steel posts, stainless steel posts, welds, bars and metal accessories excluding cycle parts, and cosmetic damage or defects.

5
year

Limited 5-Year Warranty

Stainless damper module and aluminum cycle cover, with the exclusion of cosmetic damage or defects.

2
year

Limited 2-Year Warranty

Bearings, damper, plastics, rubber parts, and some cycle parts including pedal and shaft, with the exclusion of cosmetic damage or defects.

1
year

Limited 1-Year Warranty

Rib belt of cycle, with the exclusion of cosmetic damage or defects.

MARINE GRADE SLIP RESISTANCE

Our stepping surfaces feature Marine Grade HDPE which increases the Static Coefficient Of Friction (SCOF) reducing the risk of slips and falls.

RUBBER SPRING RESISTANCE

Featured on the FitTech strength equipment, resists equally to the amount of force expended by the user, adjusting to various fitness levels and creating a higher level of fitness.

MAGNETIC RESISTANCE

The FitTech cycling equipment features magnetic resistance, which ensures smooth, gliding pedal rotation.

Designed to coordinate with FitTech products to complete your outdoor fitness park environment, ACTIONFIT offers a selection of universally designed fitness products. This equipment provides **a functional fitness solution** for individuals who use mobility devices and promotes socialization with dual-user designs.

Chest Press

TRADITIONAL

The Traditional line provides multipurpose **stationary fitness equipment** for the budget-conscious purchaser. Most products are versatile and **can be used for multiple exercises**. Users can continually change their routines, enabling a fresh approach to fitness at every visit to the outdoor fitness park. Most importantly visitors to your site will have a designated fitness solution, deterring them from misusing benches, planters, and other site amenities as fitness equipment.

SIGNAGE

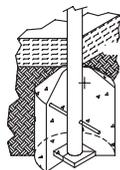

The Traditional line offers instructional signage which includes step by step instructions, a muscle diagram indicating the muscles that are being worked, and QR codes to access video tutorials.

ACTIVE ADULT FITNESS

Active Adult Fitness is a brand new line within ActionFit outdoor fitness products and approaches fitness in the eyes of those who wish to maintain their everyday activities and enjoy the outdoors at the same time. The unique features of the Active Adult line recognize the importance of handholds, seating and stepping surfaces that provide added stability for peace of mind and reduced risk of falls. The exercises in this program are designed to focus on the four elements of fitness. (see pages 6-7)

Active Adult Fitness is a comfortable outdoor fitness solution that provides its users with the opportunity to absorb valuable Vitamin D, socialize with others, and empower users for everyday living.

SHADE, FURNISHINGS, AND SURFACING COMPLETE THE PROJECT

UltraSite offers numerous site amenity solutions to help complete your outdoor fitness park. USA made steel pavilions and fabric shade structures provide protection from the elements. Coordinating site furnishings offer a place for athletes to take a rest, park a bike, or deposit trash. A full line of recreational surfacing offers underfoot comfort to reduce fatigue. Contact us to learn more!

Benefits to adding amenities:

- Enhances user comfort
- Encourages users to stay longer
- Increases use during all seasons
- Provides shade
- Provides soft surfacing for footfall rebound
- Creates a functional space
