★ Sioux Falls Omaha Lincoln Grand Island Des Moines Sioux City Iowa City Rochester Kansas City Wichita ★

WHO WE ARE

THE AMERICAN PLAYGROUND COMPANY is the Midwest's premier playground and recreational contractor that can handle every aspect of your project, big or small. From design to installation, our exclusive in-house team of project planners and installers will ensure that your playground, park, sporting and other outdoor recreational areas are perfect from start to finish. Our experienced team can assist with everything from a needs assessment and design consultation, to CAD drawings and installation to ensure your project stays on track, on budget, and on time.

As a division of **THE AMERICAN FENCE COMPANY**, American Playground Company has access to the numerous resources of our parent company, in addition to the combined buying

power that keeps us extremely competitive on price but also allows us to offer additional customizations and services you simply cannot find anywhere else.

PLAYGROUNDS & SURFACING

The American Playground Company offers many different complete playgrounds and surfacing options to provide you with a custom design experience. Our playgrounds vary in size, colors, and age ranges. They have fun activities and challenges such as cliff climbing walls, tunnels, ladders, slides, walkways, and more! Our surfacing comes in a wide

array of materials and colors to match perfectly with your park, school, church, or recreational area. Some popular surfaces are engineered wood fiber, poured rubber and rubber tile, and artificial play turf.

SHELTERS, SHADE STRUCTURES, SITE AMENITIES, & MORE

In addition to playgrounds, American Playground Company also supplies park shelters, shade structures, sports equipment, and other site amenities. Whether you're looking to have

a sheltered picnic area, protect the children from harsh sun or rain, provide benches, grills, and trash receptacles, or add a basketball hoop or goal post to your recreational area, American Playground Company has it all. Our experts will guide you in choosing the perfect size, style, and amenities for your project.
